PROFILE

"Data Scientist with expertise in machine learning, data analysis, and Python-based development. Skilled in building predictive models, performing statistical analysis, and deploying ML solutions using modern Python libraries. Passionate about solving real-world problems through data-driven insights.

WORK EXPERIENCE

Tecveq 2023 - PRESENT
Machine Learning Engineer & AI Developer

- Designed and deployed AI-powered applications using Python, FastAPI, Flask, and React.
- Developed machine learning and deep learning models for predictive analytics and intelligent automation.
- Built Retrieval-Augmented Generation (RAG) systems for semantic search and document understanding.
- Implemented computer vision solutions for image analysis, object detection, and inventory processing.
- Integrated Generative AI and Large Language Models (LLMs) into web and mobile applications.
- Collaborated with cross-functional teams to deliver scalable, production-ready AI solutions.

Findigit 2021 - 2023
AI Developer

- Developed and deployed AI-powered web applications using Python, FastAPI, Flask, and React.
- Designed and trained machine learning and deep learning models for predictive analytics and intelligent automation.
- Built Retrieval-Augmented Generation (RAG) systems for semantic search and document understanding.

EDUCATION

2024 - 2028
Comsats University Islamabad Sahiwal Campus
Bachelors Of Computer Science
